EMPLOYMENT HISTORY

DIRECTCONNECT COMPANY | INTERNSHIP

Lisbon, Portugal

Software Developer

September 2025 – February 2026

- Contributed to a CPaaS platform providing virtual numbers, voicemail, and communication services.
- Developed a scalable data management platform for admin and client operations.
- Led migration of legacy databases to PostgreSQL, improving performance and data integrity.
- Built backend services in Kotlin and frontend interfaces with Vue.js.
- Tech: Docker, Flyway, AWS

D-CENTRALIZE | INTERNSHIP

Eindhoven, Netherlands

Software Developer

February 2024 – June 2024

- Contributed to [Pro6PP](#), a SaaS geospatial API platform for postal codes, street names, and coordinates across multiple countries.
- Built scalable APIs and data pipelines to process and validate multi-gigabyte datasets with high accuracy.
- Designed a distance calculation algorithm between postal codes, reducing processing time by 50%.
- Tech: Python, Flask, PostgreSQL, Pandas, Docker, Kubernetes, Google Cloud Platform

PROJECTS

Eviden, Atos

Eindhoven, Netherlands

DEVELOPED AND DEPLOYED TO A CLOUD ENVIRONMENT

September 2024 — January 2025

- Led development of an enterprise architecture-themed card game to support organizational analysis and team alignment.
- Built scalable backend services using Java Spring Boot and Apache Kafka.
- Containerized and deployed on Google Cloud Platform using Kubernetes for high availability.
- Integrated analytics to translate gameplay data into organizational insights on collaboration and performance.

Canon Inc.

Venlo, Netherlands

DEVELOPED A DASHBOARD AND MANAGED A TEAM

March 2023 — June 2023

- Developed a regression test visualization dashboard with a Java (Spring Boot) REST API, React frontend, and MSSQL database.
- Implemented features including authentication, test and error management, filtering, and search.
- Deployed using Docker and structured the system for scalable test data handling.
- Coordinated a team of 6, managing task distribution and delivery of project milestones.

VOLUNTEERING

Lumina Foundation, Bucharest International Theoretical High School of Informatics

Bucharest, Romania

EXAM PROCTOR

November 2019

- Supervised exam sessions for ~80 students, ensuring adherence to procedures and a controlled testing environment.
- Coordinated with faculty and staff during exam administration.

New trees for New life in Prahova County

Prahova, Romania

VOLUNTEER

March 2019

- Participated in a regional tree-planting initiative promoting sustainability and community engagement.
- Collaborated with local authorities and volunteers to support environmental awareness efforts.
